EBM PU Thinner

TH300

EBM PU Thinner is designed for diluting all Poly Urethane Products with PU Hardeners.

Features:

1. Slow drying
2. Totally Compatible with Hardener
3. Regular film evaporation

Physicals Properties:

| | | |
|----------------------------------------------|---|------------------|
| Viscosity (Rotothinner at 25 ⁰ C) | : | 1 - 2 poise |
| Finish | : | N/A |
| Flash Point | : | 5 ⁰ C |
| Specific Gravity | : | 0.88 kg/L |
| Shelf Life (dry and cool store) | : | One year |

Colors: Transparent

Packing: 180 Liter drum, 18 Liter drum, 4 Liter Gallon, One Liter Can

Remarks:

- Mix the thinner with the product very well
- Close the cans after used, the thinner is sensitive to humidity and heat
- Store in dry and cool area

For more information, don't hesitate to contact our Technical Department.
